

The International SOS Membership App delivers the benefits of membership straight into the hands of your globally mobile employees.

The Membership App puts your international business travelers, expatriates and their family members in direct contact with International SOS physicians, nurses, security, operations, logistics and aviation experts. In an emergency – or for routine advice – our team of dedicated and caring professionals, as well as our global network of nearly 60,000 vetted providers, are only a click away.

Benefits for your organization

- The App helps **raise awareness and usage of your International SOS membership**, helping your international business travelers, expatriates and their families understand its value and make the most of this resource.
- With the easy-to-use App prominent on your employees' mobile devices, you create another avenue to **instantly educate, train and empower your global workforce** to proactively manage their health and security risks and help meet your duty of care.
- By having employees download the App directly or pushing it to their mobile devices, it **puts valuable travel, health and security advice and emergency assistance at their fingertips**. It also helps your organization fulfill its Duty of Care obligation.
- The App provides **reassurance of the support available to your travelers and expatriates' families**, with access available to spouses and children.

Benefits for your traveling employees

- In time of need, your employees can **quick dial for immediate help** from an International SOS assistance center, whether it's for an emergency or just for advice.
- It gives your global workforce **peace of mind and the ongoing confidence to travel** or relocate anywhere in the world knowing this safety net - and sometimes lifeline - is always available 24/7/365 simply by pressing a button.
- It gives easy access to timely **medical and security alerts for each user's location**, so travelers and expatriates are kept aware of changing situations and can quickly adjust plans as needed.
- **New mobile-friendly content** - access to medical and security information on over 200 countries and 300 cities worldwide.
